

PN101 Medical Terminology

Body Organization and Oncology Exercise

Student Name:	_____	Date:	_____
Due Date:	July 8, 2026	Points:	15

Purpose and Directions

Apply body organization, positional terminology, and oncology vocabulary to short clinical examples.

Complete all sections. Submit the completed worksheet in Canvas as an uploaded file or type your answers directly into the Canvas text box.

Section A: Body Organization Terms

Define each term in your own words and give one clinical example.

Term	Definition	Clinical Example
anterior		
posterior		
proximal		
distal		
medial		
lateral		
superior		
inferior		

Section B: Body Cavities and Regions

Identify the body cavity or abdominal region most closely connected to each finding.

Finding	Body Cavity / Region	Reason
epigastric pain		
pelvic discomfort		
chest pain		

Finding	Body Cavity / Region	Reason
right lower quadrant pain		

Section C: Oncology Vocabulary

Break down each oncology-related term and define it clearly.

Term	Word-Part Breakdown	Meaning
oncology		
carcinoma		
metastasis		
biopsy		
benign		
malignant		

Section D: Clinical Application

A patient has a malignant tumor in the left lower quadrant. Explain the location and meaning of the finding in patient-friendly language.

Grading Checklist

- ☐ Terminology definitions: 5 points
- ☐ Body region/cavity application: 3 points
- ☐ Oncology word analysis: 4 points
- ☐ Clinical explanation: 3 points
