

PN101 Medical Terminology

Nervous System Clinical Note

Student Name:		Date:	
Due Date:	August 18, 2026	Points:	15

Purpose and Directions

Translate a nervous-system clinical note into plain language and identify anatomy, conditions, tests, and treatments.

Complete all sections. Submit the completed worksheet in Canvas as an uploaded file or type your answers directly into the Canvas text box.

Clinical Note

Patient reports cephalalgia, dizziness, and intermittent paresthesia in the left hand. Provider notes possible neuropathy and orders a neurologic assessment.

Section A: Decode the Note

Identify and explain key nervous-system terms from the note.

Term	Word-Part Breakdown	Clinical Meaning	Patient-Friendly Meaning
cephalgia			
paresthesia			
neuropathy			
neurologic			
assessment			

Section B: Anatomy and Symptoms

Identify the anatomy or symptom category connected to each finding.

Finding	Category	Why It Matters
head pain		
dizziness		
left-hand tingling		
neurologic assessment		

Section C: Plain-Language Translation

Rewrite the clinical note in language a patient could understand while keeping the meaning accurate.

Grading Checklist

- ☐ Term decoding: 6 points
- ☐ Anatomy/symptom classification: 4 points
- ☐ Plain-language translation: 5 points
