

The Language of Medicine

13th edition

Davi-Allen Chabner

Chapter 6

Additional Suffixes and Digestive System Terminology

Chapter Goals

- Define new suffixes and use them with digestive system combining forms.
- List and explain laboratory tests, clinical procedures, and abbreviations common to the digestive system.
- Apply your new knowledge to understanding medical terms in their proper context, such as medical reports and records.

Chapter 6

Lesson 6.1

Suffixes (Slide 1 of 4)

Suffix

-emesis

-pepsia

-phagia

-plasty

-ptysis

Suffixes (Slide 2 of 5)

Suffix	Meaning
-emesis	vomiting
-pepsia	digestion
-phagia	eating, swallowing
-plasty	surgical repair
-ptysis	spitting

Suffixes (Slide 3 of 5)

Suffix

-rrhage, -rrhagia

-rrhaphy

-rrhea

-spasm

-stasis

-stenosis

-tresia

Suffixes (Slide 4 of 5)

Suffix	Meaning
-rrhage, -rrhagia	bursting forth (of blood)
-rrhaphy	suture
-rrhea	flow, discharge
-spasm	involuntary contraction of muscles
-stasis	stopping; controlling
-stenosis	narrowing, tightening
-tresia	opening

Suffixes (Slide 5 of 5)

- Suffixes that are also used alone as separate terms:
 - Emesis (emetic)
 - Lysis
 - Spasm
 - Stasis
 - Stenosis

QUICK QUIZ (Slide 1 of 5)

1. Which term means difficulty in swallowing?

- A. Dysphasia
- B. Dysphagia
- C. Dysplasia
- D. Polyphagia

QUICK QUIZ (Slide 2 of 5)

2. Which term means to control or stop bleeding?

A. Hemostasis

B. Hematoma

C. Hemoptysis

D. Cholestasis

Combining Forms and Terminology

(Slide of 1 of 10)

Combining Form

bucc/o

cec/o

celi/o

cheil/o

chol/e

cholangi/o

cholecyst/o

choledoch/o

Combining Forms and Terminology

(Slide 2 of 10)

Combining Form	Meaning
bucc/o	cheek
cec/o	cecum
celi/o	abdomen
cheil/o	lip
chol/e	gall, bile
cholangi/o	bile duct (vessel)
cholecyst/o	gallbladder
choledoch/o	common bile duct

Combining Forms and Terminology

(Slide 3 of 10)

Combining Form

col/o

colon/o

dent/i

duoden/o

enter/o

esophag/o

gastr/o

gingiv/o

Combining Forms and Terminology

(Slide 4 of 10)

Combining Form	Meaning
col/o	colon
colon/o	colon
dent/i	tooth
duoden/o	duodenum
enter/o	intestines
esophag/o	esophagus
gastr/o	stomach
gingiv/o	gums

Combining Forms and Terminology

(Slide 5 of 10)

Combining Form

gloss/o

gluc/o

glyc/o

hepat/o

herni/o

ile/o

jejun/o

labi/o

Combining Forms and Terminology

(Slide 6 of 10)

Combining Form	Meaning
gloss/o	tongue
gluc/o	sugar
glyc/o	sugar
hepat/o	liver
herni/o	hernia
ile/o	ileum
jejun/o	jejunum
labi/o	lip

Combining Forms and Terminology

(Slide 7 of 10)

Combining Form

lingu/o

lip/o

lith/o

odont/o

or/o

palat/o

pancreat/o

Combining Forms and Terminology

(Slide 8 of 10)

Combining Form	Meaning
lingu/o	tongue
lip/o	fat
lith/o	stone
odont/o	tooth
or/o	mouth
palat/o	palate
pancreat/o	pancreas

Combining Forms and Terminology

(Slide 9 of 10)

Combining Form

proct/o

pylor/o

rect/o

sialaden/o

splen/o

steat/o

stomat/o

Combining Forms and Terminology

(Slide 10 of 10)

Combining Form	Meaning
proct/o	anus and rectum
pylor/o	pyloric sphincter
rect/o	rectum
sialaden/o	salivary gland
splen/o	spleen
steat/o	fat
stomat/o	mouth

QUICK QUIZ (Slide 3 of 5)

3. Which term means enlarged liver?

- A. Acromegaly
- B. Cardiomegaly
- C. Hepatomegaly
- D. Hepatitis

Laboratory Tests and Clinical Procedures

- **Laboratory tests**

- **Lipase tests:** tests for the level of lipase enzyme in blood
- **Liver function tests (LFTs):** tests for enzymes and bilirubin in blood
- **Stool culture:** test for microorganisms in stool
- **Stool guaiac test or Hemoccult test:** test to detect blood in feces

QUICK QUIZ (Slide 4 of 5)

- 4. Which of the following tests for the clear fluid that remains after blood has clotted (serum)?**
- A. Stool guaiac
 - B. Hemocult
 - C. Stool culture
 - D. LFTs

Laboratory Tests and Clinical Procedures (Slide 1 of 3)

- **Clinical procedures**

- X-rays

- Lower gastrointestinal series (barium enema)
 - Upper gastrointestinal series
 - Cholangiography
 - Computed tomography (CT scan)

Laboratory Tests and Clinical Procedures (Slide 2 of 3)

- **Clinical procedures**

- Ultrasound examination

- Abdominal ultrasonography
 - Endoscopic ultrasonography (EUS)

- Magnetic resonance

- Magnetic resonance imaging (MRI)

- Nuclear medicine test

- Hepatobiliary iminodiacetic acid scan (HIDA scan)

Laboratory Tests and Clinical Procedures (Slide 3 of 3)

- ***Other procedures***

- **Gastric bypass or bariatric surgery:** reduces stomach size
- **Gastrointestinal endoscopy:** visual examination of the GI tract
- **Laparoscopy:** visual examination of the abdomen
- **Liver biopsy:** removal of liver tissue for microscopic examination
- **Nasogastric intubation:** insertion of a tube through the nose into the stomach
- **Paracentesis (abdominocentesis):** puncture to remove fluid from abdomen

QUICK QUIZ (Slide 5 of 5)

5. Which procedure is a surgical puncture to remove fluid from the abdomen?

- A. Laparoscopy
- B. Laparotomy
- C. Abdominectomy
- D. Abdominocentesis

Abbreviations (Slide 1 of 6)

Abbreviation

AFP

alk phos

ALT, AST

BE

BM

BRBPR

CD

CT

EGD

ERCP

Abbreviations (Slide 2 of 6)

Abbreviation	Meaning
AFP	Alpha-Fetoprotein--tumor marker for liver cancer
alk phos	Alkaline phosphatase
ALT, AST	Alanine transaminase, aspartate transaminase
BE	Barium enema
BM	Bowel movement
BRBPR	Bright red blood per rectum
CD	Celiac disease
CT	Computed tomography
EGD	Esophagogastroduodenoscopy
ERCP	Endoscopic retrograde cholangiopancreatography

Abbreviations (Slide 3 of 6)

Abbreviation

EUS

FOBT

G-tube

GB

GERD

GI

HBV

IBD

J-tube

LAC

LFTs

Abbreviations (Slide 4 of 6)

Abbreviation	Meaning
EUS	Endoscopic ultrasonography
FOBT	Fecal occult blood test
G-tube	gastrostomy tube – feeding tube
GB	Gallbladder
GERD	Gastroesophageal reflux disease
GI	Gastrointestinal
HBV	Hepatitis B virus
IBD	Inflammatory bowel disease
J-tube	jejuostomy tube; feeding tube
LAC	Laparoscopic-assisted colectomy
LFTs	Liver function tests

Abbreviations (Slide 5 of 6)

Abbreviation

MRI

NASH

NG tube

NPO

PEG tube

PEJ tube

PTHC

PUD

TPN

T tube

Abbreviations (Slide 6 of 6)

Abbreviation	Meaning
MRI	Magnetic resonance imaging
NASH	non-alcoholic steatohepatitis
NG tube	Nasogastric tube
NPO	Nothing by mouth
PEG tube	Percutaneous endoscopic gastrostomy tube
PEJ tube	Percutaneous endoscopic jejunostomy tube
PTHC	Percutaneous transhepatic cholangiography
PUD	Peptic ulcer disease
TPN	Total parenteral nutrition
T tube	Tube placed in the bile duct for drainage into a small pouch on the outside of the body

Review -- Suffixes (Slide 1 of 8)

Suffix
-ase
-centesis
-chezia
-ectomy
-emesis
-emia
-genesis

Review -- Suffixes (Slide 2 of 8)

Suffix	Meaning
-ase	enzyme
-centesis	puncture to remove fluid
-chezia	defecation; elimination of wastes
-ectomy	removal; excision; resection
-emesis	vomiting
-emia	blood condition
-genesis	producing; forming

Review -- Suffixes (Slide 3 of 8)

Suffix
-graphy
-iasis
-lysis
-megaly
-orexia
-pathy
-pepsia
-phagia

Review -- Suffixes (Slide 4 of 8)

Suffix	Meaning
-graphy	process of recording
-iasis	abnormal condition
-lysis	breakdown; separation; destruction; loosening
-megaly	enlargement
-orexia	appetite
-pathy	disease; emotion
-pepsia	digestion
-phagia	eating; swallowing

Review -- Suffixes (Slide 5 of 8)

Suffix
-prandial
-plasty
-ptosis
-ptysis
-rrhage
-rrhagia
-rrhaphy
-rrhea

Review -- Suffixes (Slide 6 of 8)

Suffix	Meaning
-prandial	meal
-plasty	surgical repair
-ptosis	droop; sag; prolapse; fall
-ptysis	spitting
-rrhage	bursting forth (of blood)
-rrhagia	bursting forth (of blood)
-rrhaphy	suture
-rrhea	flow; discharge

Review -- Suffixes (Slide 7 of 8)

Suffix
-scopy
-spasm
-stasis
-stenosis
-stomy
-tomy
-tresia

Review -- Suffixes (Slide 8 of 8)

Suffix	Meaning
-scopy	visual examination
-spasm	sudden contraction of muscles
-stasis	stop; control; place
-stenosis	tightening; stricture
-stomy	new opening (to form a mouth)
-tomy	process of cutting
-tresia	opening
